**Thin Set Flooring Systems**

Thin Set Flooring System is a thin mil coating designed to provide a chemical resistant and durable high gloss finish. UV and Chemical resistant grout and top coats form a protective surfacing system which is resistant to deterioration. Mosaic vinyl flakes and decorative quartz can be incorporated in a clear or pigmented epoxy and sealed with a clear, high gloss finish.

**Iso-Flex Flooring Systems**

Iso-Flex Flooring System is a high build 1/16" - 1/8", chemical resistant protective system which utilizes a internally flexible resin and select aggregates to produce a resin rich material that is easily applied with a v-notched trowel or squeegee. Iso-Flex remains flexible while the UV and chemical resistant top coat provides protection that allows the Iso-Flex system to function for many years. Mosaic vinyl flakes can be incorporated in clear or gray impact resistant Terroxy Iso-Crack Membrane. Quartz Decorative aggregate provide the toughness and flexibility while maintaining beauty and durability.
Self-Leveling Slurry Flooring Systems

Self-Leveling Slurry is a high build 1/16" - 1/8" system, chemical resistant protective self-leveling, which utilizes 100% solids binder resins and select aggregates to produce a resin rich material that is easily applied with a v-notched trowel or squeegee. Mosaic vinyl flakes can be incorporated in a clear or pigmented epoxy and sealed with a clear, high gloss finish. Adding Decorative quartz results in an aesthetically pleasing, skid resistant, durable flooring system.
**Troweled Flooring Systems**

Trowel Flooring System is a high build 1/4", chemical resistant & protective resurfacing system. The system utilizes epoxy and silica aggregate mortar, high build grout and seal coat and select aggregate for skid resistance. Mosaic vinyl flakes and decorative quartz can be added to the system for additional design options.

**Urethane Concrete Slurry Systems**

Terroxy Urethane Concrete Slurry is a 3/16" - 1/4", self-leveling, medium to heavy duty, colored, three component system designed to provide excellent resistance to abrasion, impact, and chemicals. This system is odorless, contains zero VOC’s or HAP’s and is formulated to reduce pinholes and out-gassing when curing. The Urethane Concrete system is broadcast with silica sand or decorative quartz. Optional top coatings can be applied for a variety of finishes. Terroxy Urethane Concrete is available a variety of colors.
Resinous Colors

Light Gray  Medium Gray  Dark Gray  Green
Tan  Beige  Tile Red  Medium Blue

White, Black, Safety Red, Safety Yellow, & Safety Orange are also available. Additional charges will apply for safety colors. Please contact your sales rep for samples.
